PHASE 2 EVENT DESIGNATIONS AND REQUIREMENTS

Phase 2 is **VOLUNTARY** and allows events to self-declare the EIA designation of their event. Event organizers determine the best fit for their host facility and client base and can advertise their event status to encourage participation. Phase 2 provides horse owners with the information they need to personalize their EIA risk management strategies.

Event Designation	Risk	Requirements	Applications
A	Minimal	All horses coming onto the premises for any event must have a current* negative test for EIA. This includes, but is not limited to competitions, lessons, clinics, breeding, training. All horses residing on the premises must have a current* negative test for EIA.	Any event that takes place on a facility that routinely tests all animals that reside at their facility and requires that only negative tested animals come on to the premises.
B	Low	All horses coming onto the premises for the SHF permitted event must have a current* negative test for EIA. Horses residing or coming onto the premises for other events are not required to have a current* negative test for EIA.	Events that take place on Exhibition grounds or facilities where boarded horses are not required to be tested and where both SHF permitted and non-permitted events occur. If an event chooses to let any one untested group onto the grounds at the same time as a tested group, they will follow regulations as to their proximity rules**. If these rules cannot be followed, the event will move to a 'C' designation.
C	Unknown***	Events operating under a 'C' designation will have no requirements for negative EIA tests on horses coming onto the premises or those that are permanently residing there.	This would include fairs, exhibitions and any event that allows for comingling of horses where a negative test is not required.
D	Unknown***	Events choosing to not participate in the voluntary designation process will automatically be assigned a 'D' rating.	Category D recognizes that participation in this plan is voluntary, and that these events have declined to participate.

*The SHF will recognize as 'current', any negative test for EIA that is done within the calendar year. ** Regulations for proximity require that a minimum distance of 200 meters be maintained between groups of horses during the event.
