Safety Checklist

Make a safety check list for each event, with a plan of action to ensure safety procedures are followed. Some areas to include are:

STABLE SAFETY: Arena Safety; Parking; Vehicles; Equipment

SPECTATORS: Traffic Areas; Seating; Lighting; Stairways; Exhibits; Food & Concessions

PARTICIPANTS: Equipment; Tack & Apparel; Conduct; Practice Sessions & Areas; Horse Care & Use; Visible Health;

Alcohol Use

FIRE PRECAUTIONS: Fire Prevention; Emergency Measures; Emergency Evacuations

ACCIDENTS: First Aid; Treatment; Ambulance

- Do you have signage to alert people of dangers posted in prominent view?
- Make certain you have rules/regulations in place and posted on the premises for the safety and protection of all junior/youth under the age of 18 years, both participants and spectators, at any activity or event. Make certain they are enforced.
- Are the rules and regulations of the club/facility posted clearly for all participants and spectators to see?
- Do you have a policy regarding: unruly horses and/or people; the use of alcohol/drugs on the premises; smoking in the stable area, arena, etc.; dogs running at large, or dogs anywhere on the site; children unattended; visitors & spectators in horse areas; garbage disposal; etc.
- Is all equipment to be used inspected prior to use and maintained in good working order? Does the equipment meet the technical requirements for its use?
- Is protective headgear required for participants? Is this enforced?
- Do you require participants to wear footwear with a heel when riding?
- Do you allow unsupervised riding in an arena? Can minors ride unsupervised?
- Are signs posted indicating unsupervised areas?
- Do you insist horses are tethered when standing in an alleyway?
- Are hazardous materials properly labeled, stored safely, out of the reach of horses, minors and general public?
- Is a fire extinguisher readily available in areas where fire could be a moderate to extreme hazard?
- Do you have a first aid kit available at all times (for horses and humans)? Is it inspected on a regular basis to ensure contents are kept replenished?
- Do you have directions/land location posted in case an ambulance, fire department or police need to be called?
- The above are only a few items of concern. Many other areas of a safety/risk concern may exist for your individual event or activity. List them and have a plan to deal with them.

- Do you have directions/land location posted in case an ambulance, fire department or police need to be called?
- The above are only a few items of concern. Many other areas of a safety/risk concern may exist for your individual event or activity. List them and have a plan to deal with them.

Phase 2 Event EIA Designations and Requirements

Phase 2 is VOLUNTARY and allows events to self-declare the EIA designation of their event. Event organizers determine the best fit for their host facility and client base and can advertise their event status to encourage participation. Phase 2 provides horse owners with the information they need to personalize their EIA risk management strategies.

Event Designation	Risk	Requirements	Applications
A	Minimal	All horses coming onto the premises for any event must have a current* negative test for EIA. This includes, but is not limited to competitions, lessons, clinics, breeding, training. All horses residing on the premises must have a current* negative test for EIA.	Any event that takes place on a facility that routinely tests all animals that reside at their facility and requires that only negative tested animals come on to the premises.
В	Low	All horses coming onto the premises for the SHF permitted event must have a current* negative test for EIA. Horses residing or coming onto the premises for other events are not required to have a current* negative test for EIA.	Events that take place on Exhibition grounds or facilities where boarded horses are not required to be tested and where both SHF permitted and non-permitted events occur. If an event chooses to let any untested group onto the grounds at the same time as a tested group, they will follow regulations as to the proximity rules**. If these rules cannot be followed, the event will move to a 'C' designation.
С	Unknown	Events operating under a 'C' designation will have no requirements for negative EIA tests on horses coming onto the premises or those that are permanently residing there.	This would include fairs, exhibitions and any event that allows for comingling of horses where a negative test is not required.
D	Unknown	Events choosing to not participate in the voluntary designation process will automatically be assigned a 'D' rating.	Category D recognizes that participation in this plan is voluntary, and that these events have declined to participate.

^{**}The SHF will recognize as 'current', any negative test for EIA that is done within the calendar year. **
Regulations for proximity require that a minimum distance of 200 meters be maintained between groups of horses during the event.
